PATROLMEN SUSPENDED.

Rochford and Shine Charged with Being Drunk on Duty.

Patrolmen Rochford and Shine were yesterday suspended from the police force pending an investigation of charges recently filed against them of being drunk while on duty. They were notified last night by Superintendent Taffe of their suspension and both the policemen seemed much surprised at the action taken by their superior. They claim they were not under the influence of liquor at the time they were said to have been on duty, but they both blame the head of the police department in any way for the action taken in the matter, and express themselves as being confident of reinstatement.

Oberlee said that when he went in swimming he placed his money in his shoe for safe keeping. He was out in the stream some distance, when he saw Poltz and his companion steal the money from his shoe and run. He swam to shore, and, forgetful of his nakedness, chased the thieves almost to the heart of the city, but was unable to catch them.

ALLEGED TO HAVE ASKED MONEY FOR A PUBLIC JOB.

Assistant Superintendent of the Railway Mail Service Accused by a Man Named Terry.

MR. PAYNE TO LEAVE TO-DAY

EXPECTS IMPORTANT DEVELOPMENTS DURING HIS ABSENCE.

Grand Jury Considering Several Cases—George A. Christman's Resignation Not Acted On.

WASHINGTON, July 14.—The postoffice inspectors are investigating charges made against John M. Maston, now assistant superintendent of the railway mail service and formerly chief clerk of the first assistant postmaster-general's office. A man named Terry, now in the government service, has made an affidavit before the inspectors, alleging that Maston, while chief clerk to the first assistant postmaster-general, proposed that Terry pay him \$50 down and \$5 or \$10 a month to secure reinstatement in a former position in Maston's bureau. Terry charges that he was originally a 600 employee in the dead letter office, that he was removed under an order of Maston and put into the city postoffice, that he protested and finally that Maston suggested his getting an outside party, a close friend of Maston and a former employee of the postal service, to help him. The affidavit alleges that Maston gave Terry assurance that if he paid the amount mentioned he could get back; that he went to Maston's house about the matter but did not pay the money. Terry charges that Maston then made an affidavit, making these charges, and handed it to Maston to present to First Assistant Postmaster General Johnson and that the affidavit did not reach Johnson. According to the charges, Maston subsequently was asked by Terry for the affidavit and refused to return it and Terry thereupon placed the information before the Civil-Service Commission, who took up the matter with the President.

The federal grand jury in this city is considering several important postoffice cases which are expected to prove of widespread interest. Postmaster General Payne said this afternoon that he expected there would be some important news during his absence on his trip along the coast and that he expected the grand jury would furnish some interesting developments. There is no definite information available as to the identity of the cases but the jury has been working on them for several days.

An agreement has been reached between the Postoffice Department and the Civil-Service Commission regarding the removal of employees from other departments to the Postoffice Department. The new regulations provide that in such a case the employee must be given the opportunity to be transferred to the position to which he is being transferred.

Oberlee said that when he went in swimming he placed his money in his shoe for safe keeping. He was out in the stream some distance, when he saw Poltz and his companion steal the money from his shoe and run.
